

4603 Committee

Helen Huang (Chair), Jianfei Cai, Tatsuya Harada, Xian-Sheng Hua, Nicu Sebe, Qianru Sun, Chang Xu

Conflict of interest:

None

Decision

Conference to be ranked as multiconference

Justification

Joint Conference on Computer Vision, Imaging and Computer Graphics Theory and Applications requests to be ranked as CORE B. However, it has separate sub-events with their own Chairs and PC, based on which we suggest to tag it as a multiconference, according to CORE's definition. It is worth noting that although it is being tagged as a multiconference, some of the assessment criteria show it as performing below the rank of usual C conferences.

Reviewers agree that Joint Conference on Computer Vision, Imaging and Computer Graphics Theory and Applications should be tagged as "multiconference".
