Further details: ECTEL always publish its proceedings in LNCS series by Springer. All research papers, posters and demonstrations are published there. Usually, the conference accepts papers of the following types: - Research papers: papers with a strong scientific contribution. These papers can be of different length between 6 to 12 pages. - Posters: papers of 4 pages presenting a particular technological solution or a work in progress. - Demonstration papers: papers of 2 pages that presents a particular technological solution that is presented "real live" during the conference.

Policies

Chair Selection: The program chair is selected from one of the two Program Chairs of the previous conference. There is no criteria for this selection process, since the chair is proposed by the mutual agreement of the PCs.

For the Program Chair, a steering committee (Senior Program Committee) composed by all program Chairs and General Chairs in previous years propose an open list of potential candidates. These candidates are selected according to the following criteria: 1.Career 2.Research activity 3.Participation in previous conferences

All the steering committee is invited to vote anonymously for the 2 Program Chairs.

No Policies.

Comparator Comparison

Comparator

Computer Supported Collaborative Learning

Explanation as to why conference is superior to comparator:

- The EC-TEL Conference h5 index is 20 whereas CSCL is 14. - The EC-TEL is the most preferred venue in WPP for top people, whereas CSCL appears in the 29th position.

Comparator

International Conference on Artificial Intelligence in Education

Explanation as to why conference is superior to comparator:

- The EC-TEL Conference h5 index is 20 whereas CSCL is 14, is only 1 point lower compared with the AIED h5 index, which is 21. One of this reason for this difference could be related with the fact that AIED is already indexed in CORE Index. In the pasts years, being indexed in CORE has become specially important in the community, since most of the universities only count those papers published on indexed conferences. Since EC-TEL hasn't been indexed, lots of researchers whose universities give incentives when their teachers publish in indexed conferences, have preferred sending their contributions to other conferences. - The EC-TEL is the most preferred venue in WPP for top people, whereas AIED appears in the 2nd position. - The EC-TEL was published at 47 times by 6 of 12 experts in the last 5 years, whereas the AIED was published at 19 times by 5 of 12 experts in the last 5 years.
