**Other Relevant Info**

Other relevant information: Dear colleagues,

The Euro-Par Conference on Parallel and Distributed Computing (PDC) (<http://portal.core.edu.au/conf-ranks/2022/>) has been ranked A in all the previous rankings.

We are extremely worried to learn that it was downranked to B in the 2021 ranking. Euro-Par evaluation by the CORE committee The data for this conference was provided as retaining it at rank A.

We studied as carefully as we could the figures which have been put forward by the committee to decide to downgrade the conference to rank B. Though there is no doubt about their status, we feel that they do not reflect the actual impact of Euro-Par on the PDC academic community.

We strongly request the CORE Committee to revise its ranking as a result of this major scientific impact.

See our complete letter below.

Yours truly,

Luc BougÃl, Steering Committee Chair Fernando Silva, Steering Committee Vice-Chair
