Margot Brereton (Queensland University of Technology, Australia)
Vassilis Kostakos (University of Melbourne, Australia)
Richi Nayak (Queensland University of Technology, Australia)
Monique Snoeck (KU Leuven, Belgium)
Yan Wang (Macquarie University, Australia)
Frada Burstein (Monash University, Australia)
Stephen Viller (University of Queensland, Australia)

International Journal of Information Management

The International Journal of Information Management was reviewed by the 0806 committee in 2019. It is currently at rank "C".

The journal has all indicators in green across the measured citation indicators: JCR 94% relative to comparators, JCR5 ranking of 94%, CiteScore 98%, SNIP 96%, and SJR 91%. Current SJR ranking Q1, and SJR 2018 score of 1.71, and H index of 91

The editorial board consists of 81 information systems and business research academics with a good range of high-profile senior scholars as well as ECRs. Academics from a wide international community are involved in the group. All of the members of the Editorial team have DBLP profile. Only a few don't have Google scholar profile, so H-index was calculated using Harzing's Publish or Perish system. The average H index for the first 42 members of the Editorial Board is 31, which is high enough for IS field.

The report from Where People Publish shows that the members of the editorial team published in this journal regularly, as well as other highly ranked IS journals including MISQ and Management Science, etc. However the Board does not have CS expertise and WPP does not show any evidence of board members publishing in CS venues. It also has quite a few review papers which are known to increase citation metrics. This may well be a strong journal in IS, but is not a CS journal and so will be labelled as such.
