

Proof of the addition of COIN to the CORE conference ranking list in 2009

Stephen Cranefield, University of Otago, New Zealand
scraneffield@infoscience.otago.ac.nz

- In October 2009 I submitted a request to conference.rankings@core.edu.au to have the International Workshop on Coordination, Organizations, Institution, and Norms in Agent Systems (COIN) added to the CORE conference ranking list before it was submitted to the ERA process. Jenny Edwards advised me on 17/11/09 that COIN had been added to the list.
- On 18 December 2009, Jenny Edwards sent an email message to the lists core-csprofs@core.edu.au, core-cshods@core.edu.au and core-members@core.edu.au saying (highlighting added by me):

“The ARC has released the conference list with rankings.

Please note that they made a decision to exclude a number of areas in which IT/CS researchers publish but the ERA will still take these into account.

The conference rankings will be loaded onto the CORE website in the New Year. (attached in ERA format)”

The list attached to that message included COIN, ranked B.

The email message and the list that was attached are appended to this document. COIN appears on the last page of the list.

- A snapshot of the ARC web site dated 5 March 2010 (available at http://web.archive.org/web/20100305183107/http://www.arc.gov.au/era/era_journal_list.htm) refers to the “ranked conference list released on 17 December”. Note that this release date is one day before Jenny Edwards sent the email referred to above.

That web page also included:

- a link to the “final Ranked Conference List for ERA 2010” (which did not include COIN), and
- a link to a “Conference List Change File” which was described as containing changes made to the list released on 17 December.

COIN is listed on the Deletions tab of the change file, but it is not clear why it was deleted. None of the possible reasons for deletion mentioned on the Notes tab apply to COIN.

Copies of the archived web page and the conference list change file are appended to this message.

Dear colleagues

The ARC has released the conference list with rankings.
Please note that they made a decision to exclude a number of areas in which IT/CS researchers publish but the ERA will still take these into account.

The conference rankings will be loaded onto the CORE website in the New Year.
(attached in ERA format)

They have also released the names of journals.
Journal ranks will be released in February

http://www.arc.gov.au/era/era_journal_list.htm

I am delighted to announce that

Mr Andrew Calder
Director - Research Performance and Analysis
Australian Research Council

has kindly agreed to address briefly the special workshop at ACSW on rankings
Tuesday 19 January 5.45 -7.15 in Z406 at QUT Gardens Point
Mr Calder is the rankings supremo for the ARC and ERA.
He will be talking about maintenance procedures for rankings and lists and
rankings in the ERA.

The workshop will also discuss CORE maintenance procedures and metrics for
journals and conferences.

The conference list is a compromise of many viewpoints.
No doubt some will not be happy with all the committee's various decisions.
The workshop will explore how/if CORE might do things differently next time.

PLEASE don't send any comments or revised rankings at this stage.
We can't update any more for now.
Many thanks to all who contributed over the last three and a half years to
both lists

Happy Christmas, a peaceful New Year and see you all at ACSW

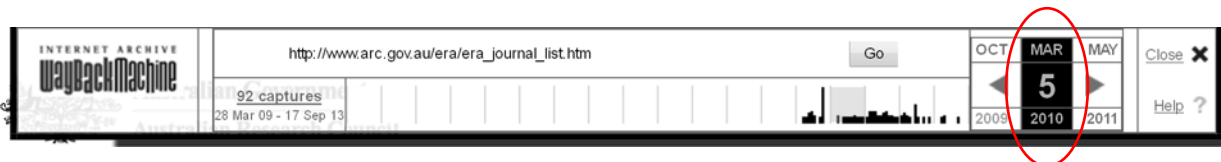

jenny

Ranked Outlets

The ERA initiative will use a range of indicators and other proxies to support the evaluation of research excellence. One of these indicators is discipline-specific tiered outlet rankings.

Ranked Journal List

The ARC has released the full ERA 2010 Ranked Journal List.

- Ranked Journal List - [Excel Format](#) (5.27mb) - [ZIP File](#) (584kb)

For each journal, the Ranked Journal List includes:

- Journal title
- ISSN(s)
- ERA ID (unique to each Journal)
- Up to 3 Field of Research (FoR) codes
- A single quality rating of A*, A, B or C. Journals that commenced in 2008 were considered too new to be assigned a firm quality rating so are not ranked.

A small number of additions and deletions to the 17 December Journal title list have occurred. These changes are documented in the journal title list change file.

- Journal Title List Change File - [Excel Format](#) (115kb)

For more information regarding the development of the Journal List visit [Ranked Journal List Development](#).

Ranked Conference List

For some disciplines, ranked conferences will be used as an indicator. The [discipline matrices](#) detail which disciplines will use ranked conferences.

Institutions are also required to submit information about conference publications from non-listed conferences. For more information, refer to the [ERA 2010 Submission Guidelines](#).

The final Ranked Conference List for ERA 2010 is now available:

- Ranked Conference List - [Excel Format](#) (411kb)

The Ranked Conference List includes:

- Conference title and acronym (where relevant)
- ERA ID – unique to each listed conference
- Up to 3 FoRs assigned to each conference
- A single quality rating for each listed conference of A, B, C or not ranked. Conferences that are not ranked are legitimate conferences, but may not be of consistent quality, or may be too new to be assigned a quality tier.

Please note: The A tier for conferences is equivalent to the A* and A tiers for ranked journals.

A number of changes have been made to the ranked conference list released on 17 December. These changes are documented in the conference list change file.

- Conference List Change File - [Excel Format](#) (58kb)

For more information regarding the development of the Conference List visit [Ranked Conference List Development](#).

Conference ranking list sent to CORE mailing lists on 18 December 2009, and described as having been "released" by the ARC. COIN appears on the last page (page 20), with a rank of B.

ERA 2010 Ranked Conference List changes

The ARC worked directly with the following peak bodies and societies to develop, consult on and finalise the ERA 2010 Ranked Conference List: Australian Deans of Built Environment and Design (ADBED)
Australian Council of Engineering Deans (ACED)
Computer Research in Education (CoRE)

As a result of feedback from these peak bodies after the publication of the original list on 17 December 2009, the ARC has made the following changes to the ERA 2010 Ranked Journal List:

Removed FoR 0807 (Library and Information Studies) from all conferences
Removed FoR 0906 (Electrical and Electronic Engineering) from all conferences
Added a number of Information and Computing Sciences conferences
Removed duplicated conferences
Removed conferences that took place outside the ERA 2010 reference period (1 January 2003 - 31 December 2008)

The other sheets in this document show conferences added or deleted since the previous conference list was published on 17 December 2009.

This is the Deletions tab of the spreadsheet. COIN is listed, but it's not clear why it was deleted. It can't be due to the grounds for deletion listed in the Notes tab: "Removed conferences that took place outside the ERA 2010 reference period (1 January 2003 - 31 December 2008)". The first COIN workshop was in 2006 (with the precursor workshops, ANIREM and OOP in 2005, also being considered as part of the COIN series, with proceedings in the COIN series of LNCS volumes).
