

October 2017

Committee:

Alistair Moffat (Chair, University of Melbourne)

Tony Hosking (Australian National University)

Young Choon Lee (Macquarie University)

Albert Zomaya (University of Sydney)

Matthew Luckie (Waikato University)

Jingling Xue (University of New South Wales)

The committee was somewhat concerned by the mixed range of acceptance rates, the mixed range of program committee members, the short review period, and the unconvincing suite of comparators. While this is an IEEE event and hence has some level of quality assurance, the fact that PC is not listed on web page is possibly indicative of a lack of transparency, and leads to doubts about the quality of the review process. After discussion, it was agreed to list it as a B, but not an A due to short review period, and unconvincing choice of comparators.
