Recommendation: reranking from A to A*

The submission requested a reranking from A to A*. All of the committee members strongly support the new ranking (A*) for this conference.

ECCV is a biennial conference, being held alternatively with ICCV. The submitter claimed that it is comparable to ICCV, where all the metrics can support the claim.

Also, it was easily justified as all data indicators were clearly indicative of an A* conference.

In particular, it is a prestigious venue in its area for google h5 (144) and has many established researchers on the PC and actively publishing there.

No indicators or opinions suggested that this venue should not be considered A*.

Committee members Thanh-Toan Do, Dong Xu, Jianfei Cai, Xian-sheng Hua and Tatsuya Harada had a CoI. They only provided objective information about the conference but stood aside from the decision. The committee chair Zi Huang, the committee member Min Xu and Lin reviewed the justification and confirmed the decision of reranking it from A to A*.
