This conference is considered as a comparator with the rank of B. The committee determined that this was justified as all data indicators were indicative of a B conference.

This was easily justified as all data indicators were very strong among the comparators.

In particular, the h5-index of this venue is 52, and the h-index of PC is 48 in the most recent year, which are clearly surpass B ranked comparators.

No indicators or opinions suggested that this venue should not be considered B.

Committee member Min Xu had a CoI and stood aside from the decision.
