This conference provided a submission to be reranked from C to B. The number of papers published varies from 17 in 2014 to 36 in 2016 and 23 in 2018. Acceptance rate is from 26% to 31%. Both general chair and program Chair are not established researchers with a single digit GS-H index and no more than 22. The median scopus h-index of the PC is 4 with 3 of 65 being established researchers. Its h5 index is 7. The ACM citation rate per paper is 1, which is very poor. The WPP report showed none of top people was published their work in this venue. It does not seem warranted to increase the ranking of this conference at this stage. The committee agreed to maintain its current ranking at C.
