The submission was requested for review of its rank A status, and was reviewed to ascertain if that rank is justified.

The PC median index of this conference is 24, established PCs is 6/12, which is above the threshold of rank A conferences. This workshop was published at 7 times by 4 of 5 experts in the last 6 years, which clearly indicates the established researchers are engaged and publish their work in this venue.

However, some important data of this conference is missing from this submission such as the h-index profiles of its general chair(s) and PC chair(s), numbers of accepted papers per year and the paper acceptance rates. Also, there is no GS h5 data available for this conference. However, its citation data says that it has 25% at top 25th centile, and 54.1% at top 50th centile in comparison with other A/A* conferences, and its hindex25 data says that it has 16.6% at top 10th centile, 25% at top 25th centile, and 50% at top 50th centile compared with other A*/A conferences, which indicates that its established researchers do publish their work in this venue. According to data provided senior people regularly publish and attend, the committee agreed that its standing in the community warrants a rank of A.
