This submission was provided for review of its rank A status, and was reviewed to ascertain if that rank is justified.

Its Google h5 index is 24. The median scopus h-index of PC is 16, with 53/118 established researchers, and 38 times by 17 of 44 experts published their work in this venue in the past 6 years.

The citation data says that this conference is 9.7% at top 25th centile and 40 % at top 50th centile, which is a bit below the average compared with other A\*/A conferences. Its index25 data says that this conference is 4.48% at top 10%, 14.4% at top 25% and 37.3% at top 50%, compared with other A/A\* conferences, which is below the threshold of A/A\* conferences too. As there is lack of important data such as the WPP data, the number of paper submissions per year and the acceptance rate data for this conference, it is appropriate to downgrade it to rank B, based on the data provided.

Having examined the new submission of this conference, its WPP data indicates that this conference was published at 37 times by 20 of 31 experts in the last 5 years, which implies that the senior researchers do attend this conference. Its acceptance rate is from 24% to 28% from 110+ to 220 submissions in the past 5 years, its CCF ranking is in C. The committee reconsidered this conference ranking and maintain its rank at B.
