Danielle Lottridge  
Stefanie Zollman

This comparative submission is maintaining the rank of A\*. The conference is the top conference covering the whole field of human factors in computing. It is very selective with an acceptance rate of around 25% with recently more than 2500 submissions. It has an h5 index of 95 clearly ranking it in the first position in the top 20 Google Scholar index of conferences in Human-Computer Interaction. The general chairs are leaders in their field and so is are the large number of senior program committee members. All key researchers publish at CHI.
