## Policies

Chair Selection: The chairs are selected each year by the board of the INSTICC. The list of candidates are active and well recognized researchers in the field, including prior keynote speakers and authors, who are familiar with the conference processes. Occasionally, are added to the list of candidates other internationally distinguished researchers. The board selects the chairs based on the curriculum of the candidates, their expertise and recognition, also considering Google Scholar h-index or Scopus h-index, as well as the coverage of the conference topics, R&D projects participation. To a lesser extent, gender and international representativeness are also considered.
