

4602 Committee

Michael Winikoff (chair), Eneko Aguirre, Noa Agmon, Christian Blum, Longbing Cao, Sergio Grecco, Reza Haffari

Decision

Conference to be ranked as C

Justification

KSEM was flagged as needing review. The conference made a submission to retain its "B" ranking.

The evidence was strongly aligned with a C ranking. Although the PC has strong people, most of the more established PC members have not published at KSEM in the last 5 years. The citation data (centiles) showed KSEM as being below a typical C-ranked venue, and $h5=6$ is very low. Although chairs are strong, they have not necessarily actually published at KSEM.
