#### Decision

Conference to be unranked.

#### Justification

The conference was not ranked before and was requested to be ranked B. The conference presents a good organisation but publishes not many papers, its citation strength appears lower than B venues. The conference was asked to be "unranked" if it could not be ranked at the B level, hence the decision.

This is not something which CORE intended to be allowed, but as that wasn't made clear, it has been left at unranked for now.
