Decision

Conference to be ranked/tagged as B

Justification

In the submission, Hcomp was requested to be reranked to A, based on the metrics, and after discussions, it was decided that a reranking is not justified and rank B is suitable.

Hcomp receives a rather lower number of submissions (65, 58, 55). Papers are not available in Scopus and as such, centiles are not available. Conferences cannot be upgraded if papers are not in Scopus. h5 index is 19. IPC has around 50 members, half of them being established researchers. The acceptance rate is around 28%, and around 50 full papers are published each year.
