Decision

Conference to be ranked/tagged as B

Justification

In the submission, Qomex is a conference that was not ranked before and is new, it was requested to be ranked as A. Author strength and amount of established researchers in the PC are good. Citation centiles sit between A/A* and B. However, it has high acceptance rates around 50%, and there is a large number of junior members in the PC. Considering all these aspects, it was decided that a rank of B is more adequate. With metrics improving over time, it may well be A in future.
