Proceedings Publishing Style

Proceedings Publishing: self-contained

Link to most recent proceedings: <https://scitepress.org/ProceedingsList.aspx?FieldName=NX8zK3c48nE=&t=1&title=33voAB140Hs=&t=1&conference=7+mgmp501Xk=&t=1&year=7+mgmp501Xk=&t=1&isbn=7+mgmp501Xk=&t=1>

Further details: The Conference Proceedings, including final versions of all accepted papers, separated by category (full and short papers), are published by SCITEPRESS, under an ISBN and, for conferences held on an annual basis, also under an ISSN. The proceedings are obtainable both on paper and digital support, and are available online at the SCITEPRESS Digital Library (www.scitepress.org). Access to all papers is free for all researchers, in an open access way. Anyone who wishes to access any paper needs only to get a free user account to login. Besides the regular conference proceedings publication by SCITEPRESS, the conference has also an agreement with Springer (CCIS series) to publish a short list of revised and extended versions of papers presented at the conference. The next year edition the conference has also an agreement with the Springer Nature Computer Science journal to publish a short list of ICISSP 2021 best papers.

Policies

Chair Selection: The chairs are selected each year by a committee composed by the prior chairs and the board of the main sponsor (INSTICC). The candidates are first of all the prior chairs, who are usually rotating in a regular basis, after a few years on the same position. When the prior chairs rotate and a position is open, the list of candidates is composed by the highest h-index members of the program committee, prior keynote speakers and frequent authors, who are familiar with the conference processes. Occasionally, are added to the list of candidates other internationally distinguished researchers, who are proposed by colleagues belonging to the initial list of candidates. Criteria to be actually invited to become conference chair or program chair include the level of expertise and recognition, based on Google Scholar h-index or Scopus h-index, combined with the coverage of the conference topics, based on the candidate list of publications in these indexes as well as in dblp, R&D projects participation, and also, to a lesser extent, gender and international representativeness.

Comparator Comparison

Comparator

Asia Conference on Information, Computer and Communications Security

Explanation as to why conference is superior to comparator:

- The acceptance rate of our conference is lower or similar to the comparator event. - The comparator event has a lower h5-index than our conference. - The chairs of our conference are distinguished researchers whose h-index is comparable or higher than that of the

comparator event chairs. - The quality of our conference benefits from some stability of the conference/program chairs, as it rotates chairs every few years, unlike the comparator, which has different chairs every year. - The comparator is not listed in Google Scholar.

Comparator

IFIP Information Security & Privacy Conference

Explanation as to why conference is superior to comparator:

- The acceptance rate of our conference is lower or similar to the comparator event. - The chairs of our conference are distinguished researchers whose h-index is comparable or higher than that of the comparator event chairs. - The comparator event has the same h5-index than our conference. - The quality of our conference benefits from some stability of the conference/program chairs, as it rotates chairs every few years, unlike the comparator, which has different chairs every year.

Other Relevant Info

Other relevant information: - Our conference has a double-blind review process, each paper being reviewed by at least 3 members of the program committee, but often more than that, and the program committee is composed by researchers who are active and well respected internationally, with high h-indexes.

- The technical program of our conference always includes keynote speakers who are internationally distinguished researchers in the topic areas of our conference, such as: Elisa Bertino, Purdue University - h-index: 99 Ross Anderson, University of Cambridge - h-index: 80 Bart Preneel, KU Leuven - h-index: 79 Jason Hong, Carnegie Mellon University - h-index: 70 Stefan Schmid, University of Vienna - h-index: 41 Edgar Weippl, University of Vienna, SBA Research - h-index: 38 GÅijnther Pernul, University of Regensburg - h-index: 31 Sokratis Katsikas, Norwegian University of Science and Technology - h-index: 30

- The conference is well integrated in the research and academic network, including some institutional partners that collaborate to increase the quality and visibility of the conference, such as IEEE, Springer, OMG, WfMC, EC-Council and others indicated on its website of the current and previous editions.
