Top People Report

Method of selection: CHI is a CORE A* conference. It is the top outlet (both conference and journal) for the HCI research discipline. This list has been assembled from the "Games and Play" Sub-Committee Chairs for the years 2016-2021 and the Associate Chairs for 2021. "Games and Play" is one of twelve tracks at CHI-2021. It has been a consistent track at CHI for the past approx. 10 years. It is a good representation of people doing HCI and Games research.

See here for the list of 2021 sub-committee Associate Chairs: <https://chi2021.acm.org/organising/organising-committee>

I have been told that all entrants need an H-index of at least 45. I have put in the top people found under the self-selected label:human_computer_interaction. From these I have selected the top people based on: HCI is primary research focus.
