Submission Data for 2020-2021 CORE conference Ranking process
International Conference on Information and Communication Technologies for Ageing Well and e-Health

Maurice Mulvenna, Leszek Maciaszek, Martina Ziefle

Conference Details

Conference

Title: International Conference on Information and Communication Technologies for Ageing Well and e-Health
Acronym : ICT4AWE

Requested Rank

Rank: C

Primarily CS

Is this conference primarily a CS venue: True

Location

Not commonly held within a single country, set of countries, or region.

Recent Years

Proceedings Publishing Style

Proceedings Publishing: self-contained
Link to most recent proceedings: https://www.scitepress.org/ProceedingsList.aspx?FieldName=NX8zK3c48nE=&t=1&title=7+mgmp501Xk=&t=1&conference=LhD21uPwPoU=&t=1&year=7+mgmp501Xk=&t=1&isbn=7+mgmp501Xk=&t=1
Further details: The Conference Proceedings, including final versions of all accepted papers, separated by category (full and short papers), are published by SCITEPRESS, under an ISBN and, for conferences held on an annual basis, also under an ISSN. The proceedings are obtainable both on paper and digital support, and are available online at the SCITEPRESS Digital Library (www.scitepress.org). Access to all papers is free for all researchers, in an open access way. Anyone who wishes to access any paper needs only to get a free user account to login. Besides the regular conference proceedings publication by SCITEPRESS, the conference has also an agreement with Springer (CCIS series) to publish a short list of revised and extended versions of papers presented at the conference.

Policies

Chair Selection: The chairs are selected each year by a committee composed by the prior chairs and the board of the main sponsor (INSTICC). The candidates are first of all the prior chairs, who are usually rotating in a regular basis, after a few years on the same position. When the prior chairs rotate and a position is open, the list of candidates is composed by the highest h-index members of the program committee, prior keynote speakers and frequent authors, who are familiar with the conference processes. Occasionally, are added to the list of candidates other internationally distinguished researchers, who are proposed by colleagues belonging to the initial list of candidates. Criteria to be actually invited to become conference chair or program chair include the level of expertise and recognition, based on Google Scholar h-index or Scopus h-index, combined with the coverage of the conference topics, based on the candidate list of publications in these indexes as well as in dblp, R&D projects participation, and also, to a lesser extent, gender and international representativeness.

Reference item: \\ 2. International Conference on Information and Communication Technologies for Ageing Well and e-Health (ICT4AWE)

This conference was published at 11 times by 5 of 18 experts in the last 5 years.

The experts that publish at this conference are: George Xylomenos(2), Susanna Spinsante(3), Ennio Gambi(4), Karsten Berns(1), Hermie J. Hermens(4)

In 2015, there were 2 publications by 3 experts: Ennio Gambi, Karsten Berns, Susanna Spinsante
In 2016, there were 4 publications by 3 experts: George Xylomenos, Ennio Gambi, Susanna Spinsante
In 2017, there were 2 publications by 1 experts: Hermie J. Hermens
In 2018, there were 1 publications by 1 experts: Hermie J. Hermens
In 2019, there were 1 publications by 1 experts: Hermie J. Hermens
In 2020, there were 1 publications by 1 experts: Ennio Gambi

Other Information

Comparator Comparison

Comparator

IEEE international conference on ehealth networking applications and services (was International Workshop on Enterprise Networking and Computing in Health Care Industry; changed 2006)

Explanation as to why conference is superior to comparator:
- The acceptance rate of ICT4AWE is lower than HealthCom. - The chairs of ICT4AWE are distinguished researchers whose h-index is comparable or higher than that of HealthCom chairs. - The quality of our event benefits from some stability of the conference/program chairs, as it rotates chairs every few years, unlike the comparator, which has different chairs every year. - Since HealthCom didn't provide online their total submissions and ratio of acceptance, we tried to get in contact with them, however with no success. So, we estimated that HealthCom would have an acceptance rate of around 50% in 2017 and 60% in 2019, given their size and quality, and calculated the submitted papers using this rate and the published papers number, which was available online.
Link to comparator report:
http://portal.core.edu.au/core/media/conference_submission_2020/Data_Comparator_for_1639_878.pdf

Comparator

European Conference on Ambient Intelligence

Explanation as to why conference is superior to comparator:
- The acceptance rate of ICT4AWE is lower than AmI. - The chairs of ICT4AWE are distinguished researchers whose h-index is comparable or higher than that of AmI chairs. - AmI has no h5-index. - The quality of our event benefits from some stability of the conference/program chairs, as it rotates chairs every few years, unlike the comparator, which has different chairs every year.
Link to comparator report:
`http://portal.core.edu.au/core/media/conference_submission_2020/Data_Comparator_for_1639_884.pdf`

Other Relvant Info

Other relevant information: - ICT4AWE has a double-blind review process, each paper being reviewed by at least 3 members of the program committee, but often more than that, and the program committee is composed by researchers who are active and well respected internationally, with high h-indexes.
- The technical program of ICT4AWE always includes keynote speakers who are internationally distinguished researchers in the topic areas of ICT4AWE, such as: Victor Chang, Teesside University - h-index: 48 William Molloy, Centre for Gerontology and Rehabilitation, School of Medicine, UCC - h-index: 45 Nick Guldemond, Erasmus School of Health Policy & Management - h-index: 45 Hubert ÃŰsterle, Institute of Information Management (IWI), University of St. Gallen - h-index: 41 Miriam Vollenbroek-Hutten, University of Twente - h-index: 39 Panagiotis Bamidis, Aristotle University of Thessaloniki, Greece & Leeds Institute of Medical Education, University of Leeds - h-index: 39 Juan Augusto, School of Science and Technology, Middlesex University - h-index: 35 Maurice Mulvenna, Ulster University - h-index: 33 Thomas Hermann, CITEC - Center of Excellence Cognitive Interaction Technology, Bielefeld University - h-index: 31
- The conference is well integrated in the research and academic network, including some institutional partners that collaborate to increase the quality and visibility of the conference, such as ACM, IMIA, HON, Himss, ISfTeH, Springer, OMG, FiPa, ISFTEH, and others indicated on its website of the current and previous editions.
