Method of selection: How we determined the top 20 experts in the community: We used the "Applied Ontology" tag (https://scholar.google.com/citations?hl=en&view_op=search_authors&mauthors=label%3Aapplied_ontology) and looked at the top 40 authors (the list is sorted by number of citations). We selected the 20 people with the highest h-index among that set of people.
