Despite weak metrics, very clearly a leading (broad) journal, which comes up as a journal of choice in various WPP analyses.

Despite weak metrics, this is very clearly a leading (broad) journal, which comes up as a journal of choice in various Where People Publish analyses. The EB is also very strong, and actively publishes in the journal. The panel saw it as a clear "A".

Evidence considered: Editors in Chief (H=37, 34, 44), Scimago (consistently Q2 for theoretical CS, but H=105); Google Scholar venue ranking (strong); publishes special issues of CORE A-ranked conferences (e.g. COCOON); strong editorial board strongly publishing in the journal; and a WPP analysis of top 20 people in Google Scholar tagged with "computing theory".
