Hi CORE,

As the current president of ICAPS, the International Conference on Automated
Planning and Scheduling http://www.icaps-conference.org, I would like to
make the following request:

        That the FOR code of ICAPS be changed (back) to 0801
("Artificial Intelligence ...")

ICAPS used to be indexed by CORE as a 08 conference. See for example
http://web.archive.org/web/20081020054407/http://www.core.edu.au/ An error
introduced in the first ERA process placed ICAPS in FOR code 1005
("Communication Technologies"). My personal guess is that the clerical error
comes from a confusion with ICASSP, the International Conference on
Acoustics, Speech and Signal Processing http://www.icassp2013.com

Automated Planning and Scheduling is one of the core disciplines of Artificial
Intelligence http://en.wikipedia.org/wiki/Automated_planning_and_scheduling.
The conference itself is a merger between the Artificial Intelligence Planning
Systems conference and the European Conference on Planning. The ICAPS
bank account is managed by the Association for the Advancement of Artificial
Intelligence (AAAI). Hopefully I don't need to say more to justify that it belongs
to 0801.

Many thanks,

Sylvie
