

In 2009 the Pacific Rim Workshop on Multi-Agents changed its name to International Conference on Principles of Practice in Multi-Agent Systems. In ERA 2010 this was not recognised as the same conference and was ranked "C", presumably due to no-one recognising it. Pacific Rim Workshop on Multi-Agents remained in ERA 2010 ranked B. In 2014 this discrepancy was noticed and the two entries were merged, retaining the original rank of B, but with the new name.
