Comparator Conferences

International Symposium on Empirical Software Engineering and Measurement

IEEE International Conference on Software Maintenance and Evolution (prior to 2014 was ICSM, IEEE International Conference on Software Maintenance)

Other Information

Proposers

First name: Thomas

Last name: Zimmermann

Affiliation: Microsoft Research

Email: tzimmer@microsoft.com

Attachments

N/A

Summary Argument:

The MSR conference is ranked among the top conferences on Software Systems in Google Scholar [1] (currently #8, third highest software engineering conference, behind ICSE and ESEC-FSE).

The conference is ranked higher than both of the comparator conferences (ICSME #18, ESEM not in Top 20). Both comparator conferences are A-level conferences.

In fact the MSR h-index is higher than most A-level software engineering conferences (only FSE and ICSE have higher h-indexes).

The C-level for MSR dates back to when MSR was workshop; however, since ERA2010 MSR has grown into an established conference with senior organizers. The MSR conference is sponsored by IEEE TCSE and ACM SIGSOFT. The MSR conference also awards the prestigious ACM SIGSOFT Distinguished Paper Awards. The best papers of the MSR conference are invited to special issues of the Empirical Software Engineering (EMSE) journal, which is tied with TSE for the highest impact factor in software engineering.

Additional Notes

1. Please see the comments on the CORE page for the MSR conference for community feedback.
<http://portal.core.edu.au/conf-ranks/711/>

2. The name of the conference is incorrect. It should be "International Conference on Mining Software Repositories" (without the "IEEE" because ACM is also a sponsor and without the "Working")
