

Oct 2017, Jan 2018

Committee:

John Grundy (Chair, Monash)

Serge Gaspers (University of NSW)

Joachim Gudmundsson (Sydney University)

Tony Wirth (University of Melbourne)

Franck Cassez (Macquarie)

Robert van Glabbeek (Data61/UNSW)

Lin Padgham (RMIT)

Panel opted to leave as a B following supplementary review, but borderline on available data - large acceptance rate, small size. Supplementary data provided is appended to original data. Note however that comments about errors in WPP calculations are incorrect. Statistics for other conferences typically do not include invited talks. Also as data relies on DBLP it is not feasible to pick up related journal publications in order to assess conferences. CORE is investigating how to manage conferences that publish material solely or partially in journals.
