

October 2017

Committee:

Alistair Moffat (Chair, University of Melbourne)

Tony Hosking (Australian National University)

Young Choon Lee (Macquarie University)

Albert Zomaya (University of Sydney)

Matthew Luckie (Waikato University)

Jingling Xue (University of New South Wales)

The committee noted the consistent quality and reasonable acceptance rate, and the international and reputable organizing team.

However the committee noted that the conference is always held in India, which held back the ability of the conference to be truly international and restricted it from building a broader pool of authors and attendees.

Overall, the committee did not feel that HiPC was as strong as the supplied comparators, and decided that while it was appropriate to shift it to become B ranked, that A was not appropriate at this time.
