

October 2017

Committee:

Alistair Moffat (Chair, University of Melbourne)  
Andy Cockburn (University of Canterbury)  
Judy Kay (University of Sydney)  
Ying Zhang (University of Technology, Sydney)  
Peter Bernus (Griffith University)  
Frada Burstein (Monash University)

The committee reviewed the materials provided for WISE, and viewed its as being perhaps marginal as an A, with strong paper submissions and mid-range acceptance rates, but low citation impact, and low recognition from experts via the DBLP listing. On balance, the committee decided that it did not have clear evidence either way, and decided to leave it as an A rather than pursue a reranking at B.
