ICORES requested to be ranked as "B". The committee felt that all the indicators were more consistent with a "C" ranking. It noted mostly weak chairs (with low turnover), h5=9, a reasonable programme committee, but with the more established PC members not actively publishing in ICORES, and B4 in the Brazil ranking. Although ICORES is frequently held in Portugal, it has been also held elsewhere, so does not qualify as "National" or "Regional".

The claim that: "COCOA only accepts extended abstracts for submission (if accepted, the authors will then prepare the complete paper for publication and presentation), whereas ICORES only accepts complete papers submission for revision and publication, allowing authors to describe their research problems and solutions in a more detailed and useful way to the research community" appears to be incorrect.
