Yuan-Fang Li (Monash University, Australia)

IEEE-ALIFE was required to submit in order to retain its ranking, but
did not submit. The committee chair collected information (see below),
and additionally contacted the conference chairs, who provided
additional information.

Taking all the information into account, the committee assesssed it at
rank "C", in particular noting: strong chairs (e.g. H=31, 37, 48,
although also H=10 and one person no H index), that the event is
biennial, that the PC seemed reasonable (but, due to missing DBLP data,
we did not have a WPP report), that the conference does not have an h5
(the report wrongly states h5=16, but that's the journal), and a very
high acceptance rate (69%, 80%, 85%).
