This conference was required to have a review for its current rank of A.

This conference was published at 8 times by 4 of 15 experts in the last 6 years, which is an indication of not being a venue of choice for a substantial number of top people in the area. The median of the PC h-index is also low (14).

An A ranking of the conference is NOT supported by the committee. It is suggested to downgrade its ranking to B.
