Xian-sheng Hua (Alibaba DAMO Academy)
Tatsuya Harada (University of Tokyo)

The submission is an A-ranked comparator, and the committee agreed to remain its current ranking. This was easily justified as all data indicators were clearly indicative of an A conference. Particularly, the conference is relatively large (539 papers were published in last year) and has high google h5 index (61).
Experts in this field regularly publish there (35 out of the 36 experts published at this conference in 2 or more years in last five years).

The committee considered it as one of the best medical image conferences and agreed that its standing in the community warrants a rank of A.

Committee members Xian-sheng Hua and Tatsuya Harada had a CoI. They only provided objective information about the conference but stood aside from the decision.
