Provided as comparator, Maintain A* Ranking

CRYPTO has been provided as a comparator.

This conference is a common publishing venue for world renowned cryptography experts. CRYPTO was published 101 times by 20 of 20 experts in the last 5 years and ranked first in WPP for publishing by top cryptography researchers according to data provided in the ASIACRYPT submission. This conference has a high h5 index of 52, with low acceptance rates (21,23,23 in the last three years). The committee is in general agreement that CRYPTO remains one of the flagship conferences for Cryptography research and recommends unanimously that it maintains its A* ranking.
