

#### 4606 2021 Committee

Weifa Liang (Australian National University) CHAIR  
Albert Zomaya (The University of Sydney)  
Wen Hu (University of NSW)  
Winston Seah (Victoria University of Wellington, New Zealand)  
Lorenzo Alvisi (Cornell University, USA)  
Yuanyuan Yang (Stony Brook University, USA)

The data for this conference was provided as a comparator at rank B. This is quite a large conference (over 100 papers) with acceptance rates in the 50's. Chairs are on the whole quite junior with GS h-index well under 20 in most cases (2017 had a well established Chair). The program committee of 16 is very small for this size of conference and is largely quite inexperienced with only 4 members considered established researchers. For the higher centile they are well below average for citations (for this FoR code), although by the 50th centile they have reached 48%. On author h-index they are just below average at all centiles. The committee agreed that it is appropriate to assign APCC at rank C, rank than at rank B.
