Weifa Liang (The Australian National University)
Winston Seah (Victoria University of Wellington, New Zealand)
Yuanyuan Yang (Stony Brook University, USA)
Albert Zomaya (The University of Sydney)

The submission was provided as a comparator at rank of A, and was reviewed to ascertain if that rank is justified.

Although conference CCGRID has an h5 of only 25, which is low for an A conference, this can be partly explained by the fact that it is a medium conference (47-52 papers/year with low acceptance rate from 21% to 23%). The median PC index is 13, with 64/208 established researchers, and 68 times by 24 of 53 established PC researchers. The citation data of this conference says that the conference is 18.7% at top 25th centile and 54% at top 50th centile, compared with other A/A* conferences, and its index25 data says that it is 14.3% at top 25th centile, and 36% at top 50th centile. Given the data available, it seems appropriate to leave at A.
