This conference requested to be added at rank B.

This is a rather small conference with 20-30 papers/year and an acceptance rate of 22-29%. The median h-index of PC members is 10, with 15 of 115 PC members being established researchers. Only 7 of these established researchers had published in the conference in the last 5 years and only 4 of these in a second year, showing weak engagement of the PC. There was also no pattern of the PC publishing in strong venues. Google scholar h5 is 17.

Both General and Program Chairs have been the same in the last 3 years.

The committee determined that this appears to be a genuine academic venue with standard academic peer review, but is more appropriately ranked as C than B. It will be added at rank C.
