This conference applied to be added as Regional.

It is organized Wroclaw University of Technology Poland with the same chairs each year. It does appear that full papers are reviewed and acceptance rates range from 50-60%.

The proceedings preface states: "ISAT is also devoted as a forum for the presentation of scientific contributions prepared by MSc. and Ph.D. students. Business, Commercial, and Industry participants are welcome."

The 2018 Proceedings was in 3 volumes with 84 papers.

The PC consists of 108 people but only 9 can be considered established researchers, of which only 2 have published there in the last 5 years. Extending to 10 years does not increase this number.

The proceedings are difficult to access as they are behind a paywall and most universities do not subscribe to these proceedings. However a sample was provided and has been reviewed.

The conference can be added as National:Poland
