This conference requested to be added at rank B.  
A relatively small percentage (20%) of the PC are considered to be established researchers. Of the 10 established researchers, 7 had published in the venue at least once in the last 5, with 4 having published there twice.  
The conference is quite small 7-13 papers in the 3 years reported. The acceptance rate has varied from 35-46% in the 3 years reported. Details of reviewing were unable to be found, although it is stated that all papers have been reviewed.  
As only limited metrics were available the committee was not convinced that this conference met the standards for rank B and so it has been included at rank C.
