The submission requested a new ranking at the rank of A, however the CHIPlay papers appear in the PACM journal and so this conference should be ranked as journal published.

The conference has an h5 of 25, which is good, but it is not listed in the top 20 Google Scholar conferences on HCI. It has a typical acceptance rate of 26-35% with 120-180 submissions per year, which is elective.

The General Chairs are strong with h-index scores of 15-44, with similar h-index scores for the Program Chairs. The Senior PC seems to have an average h-index of 10-14, but there are no Senior PC members with an h-index greater than 20. A total of 7 of 21 of the top people in HCI have published in the conference, with some attending.
