This conference was requested to be ranked as Australasian, which appears to be a mistake. The committee does not consider this to be an Australasian conference.

The conference statistics appear comparable to a rank B, which is recommended. In particular the conference has nearly 200 submissions with an acceptance rate of less than 30%. The General Chairs have a strong h-index (20-63) and the PC committee is also strong (h-index of 12-55). The h5 index for the conference of 17 places it right in the range of a B conference.
