The submission requested a new ranking at the rank of A, which was considered to be justified. The conference has an h-5 of 40, which is reasonable for an A conference, and a typical acceptance rate of 30-40% with 35-44 accepted papers reported per year.

The General Chairs and PC Chairs have h-index scores of 15-69, with one more senior person in considerable diversity in line with their policy. The very large PC has 48 researchers above the threshold in a very large PC N= 218.

Senior researchers regularly attend and publish at the meeting. This conference has a mix of education and CS research and this is one the highest ranked conferences in Educational technology with a strong computer science flavour.
