A submission was made to rank BDCAT with the requested rank of A. The committee's assessment was based on the data provided together with data obtained from the proceedings, Google Scholar and Scopus.

BDCAT is a small conference accepting aorund 30 papers per annum. It has a Google Scholar h-index of 9. Its acceptance rate for full papers is slightly over 25% and for all papers is close to 50%. Only seven out of thirty-eight PC members have Scopus h-indexes of 18 or above. Many of the Chairs have h-indexes below 18.

The committee was unanimous in assessing BDCAT should be ranked Sound and Satisfactory (C).
