

4612 2021 Ranking Committee

John Grundy (Monash) CHAIR

Maria Spichkova (RMIT University)

Stephen MacDonell (Auckland University of Technology and the University of Otago)

Antonio Vallecillo (Universidad de Malaga, Spain)

Hongyu Zhang (The University of Newcastle)

COMPSAC is currently ranked at B and the committee checked if the B rank is still justified.

COMPSAC is listed as a comparator of iLRN conference (International Conference of the Immersive Learning Research Network), which isn't listed at the CORE portal - iLRN is rather a purely education conference, not CS.

In the past three years:

Number of submissions good (257-250-290), but the acceptance rate is high, 44-48%.

Senior PC members moderate to high h index - 5/12, which is low.

This conference was published at only 21 times by 5 of 5 experts in the last 5 years. COMPSAC isn't among top 20 venues as per Google Scholar metrics, but its h5 index is 27.

Committee decided that COMPSAC should stay at rank B, taking into account h5=27 and high number of submissions.
