

4612 2021 Ranking Committee

John Grundy (Monash) CHAIR

Maria Spichkova (RMIT University)

Stephen MacDonell (Auckland University of Technology and the University of Otago)

Antonio Vallecillo (Universidad de Malaga, Spain)

Hongyu Zhang (The University of Newcastle)

ECOOP is currently ranked at A and the committee checked if the A rank is still justified.

The number of submitted papers is 82, 66, and 81 in the past three years, with an acceptance rate 34%, 39%, and 33%, respectively. The number of submissions is low and the acceptance rate is high for an A conference.

The average PC h-index is around 14. This conference was published at 12 times by 4 of 6 experts in the last 5 years. These metric values are not very strong.

ECOOP is NOT among the top 20 software system venues according to Google Scholar. The h5-index for this conference is 20, which is not very strong.

The committee members discussed this conference and originally agreed that this conference can be downgraded to rank B.

However, a reconsideration request was made which highlighted improved data on top people publishing, conference committee, committee publishing at conference and h5.

The committee discussed and agreed that with the new resubmission info the rank should remain A.
