ENASE requested uprank from B to A. Comparator conferences are EASE and ESEM.

The number of submitted papers is around 100 per year, with an acceptance rate around 20%. These numbers are good.

The average PC h-index is around 10, which is a bit low. WPP is a bit weak: this conference was published at 12 times by 7 of 22 experts in the last 5 years.

ENASE is NOT among the top 20 software system venues according to Google Scholar. The conference has a GS h5 of 13, which is not very strong.

The conference has the same General Chair and PC chairs for three years (2017-2019).

The committee members discussed this conference and agreed that this conference should remain at rank B.
