TAP is currently ranked at B and the committee checked if the B rank is still justified.

The number of submitted papers is 19, 18, and 16 in the past three years, with an acceptance rate 53%, 56%, and 56%, respectively. These numbers are not good for a B conference.

The WPP is also weak: this conference was published at 2 times by 2 of 6 experts in the last 5 years.

TAP is NOT among the top 20 software system venues according to Google Scholar. No Google Scholar h5 index is available for this conference.

The committee members discussed this conference and agreed that this conference should be downgraded to rank C.
